ADDENDUM 1
to
PERFORMANCE WORK SPECIFICATION dated 12 Feb 03

This Addendum is applicable to only the ALR-56C NSNs specified below. The use of condemnation line items as specified in Attachments B and C are not intended to set a precedent. Use the following additional instructions for these items only:

6130-01-290-5835EW

5865-01-287-6182EW

5865-01-179-9699EW

Para 1.2

In addition to existing wording

Repair Maintenance Concept:

The Contractor is authorized to swap assemblies and parts between LRUs, referred to as "swap-tronics or cross cannibalization" in order to effectively produce serviceable end items. This is authorized so long as reliability and performance are not affected by these actions.

Para 3.1.1.1

In place of 2nd paragraph

Condemnations:

Items condemned under the provisions of the contract, after ACO approval, shall be disposed of IAW PCO direction on a case by case basis. Government program office may determine to have condemned inventory retained at the Contractor's facility, with Contractor concurrence.
